

REMARKS

Applicant appreciates the examiner's review of the present application and indication of allowance of claims 10 through 16. By the present amendment, applicant is canceling, without prejudice, claims 1 through 9.

The examiner has objected to the drawings as not showing the fifth support channel of claims 4 and 12. Applicant traverses this rejection. Paragraph 10 of the specification describes the fifth support channel located on the bottom surface of the carrier. This feature is shown in figures 10 through 12. By the present amendment, paragraphs 27 and 28 have been amended to clearly describe this feature. Accordingly, applicant believes this objection has been addressed and overcome.

Applicant believes that the present application is now in condition for allowance. The examiner is invited to telephone the undersigned, applicant's attorney of record, to facilitate advancement of the present application.
